

TRANSCRIPT OCR TO STUDENT INFORMATION SYSTEM AUTOMATION

In under 1 minute
100% accuracy

<https://ktechproducts.com/>

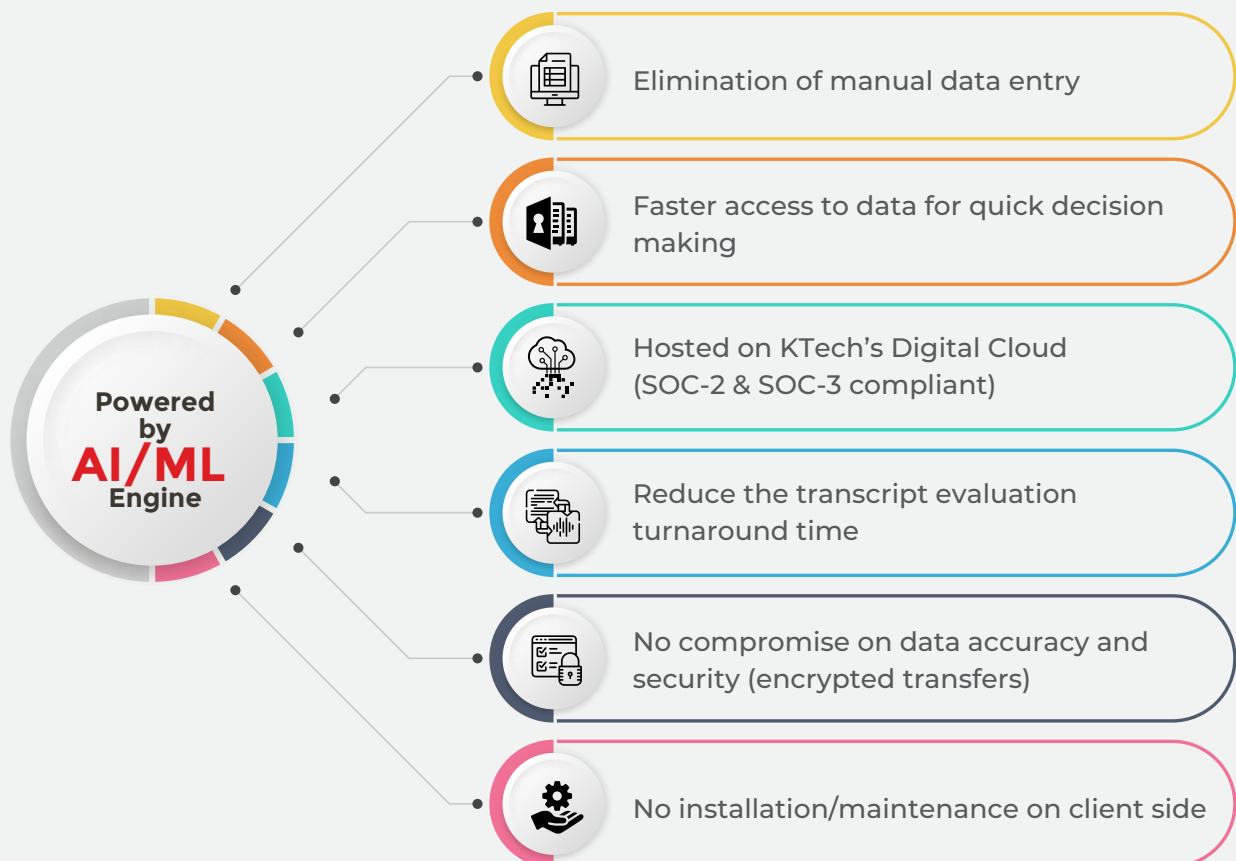

POWERED BY
AI/ML Engine, iRPA and Smart OCR Bots

OUR OCR SOFTWARE SOLUTION MAKES THE DIFFERENCE

- ⌚ Some colleges evaluate 10,000 to 12,000 transcripts annually with limited resources
- ⌚ Multiple sources – mail, hand delivered, EDI, high school, community colleges
- ⌚ The transcript will come with complex logos and grade information
- ⌚ Translations (international) required
- ⌚ Integrations to multiple systems – Document Management, SIS, ERP, etc.
- ⌚ Filtering and mapping to ERP – Laborious process transfer credit equivalency
- ⌚ Admission Office busy during enrollment time; longer waiting period for enrollments

KTech's Transcript to SIS Solution to address these challenges:

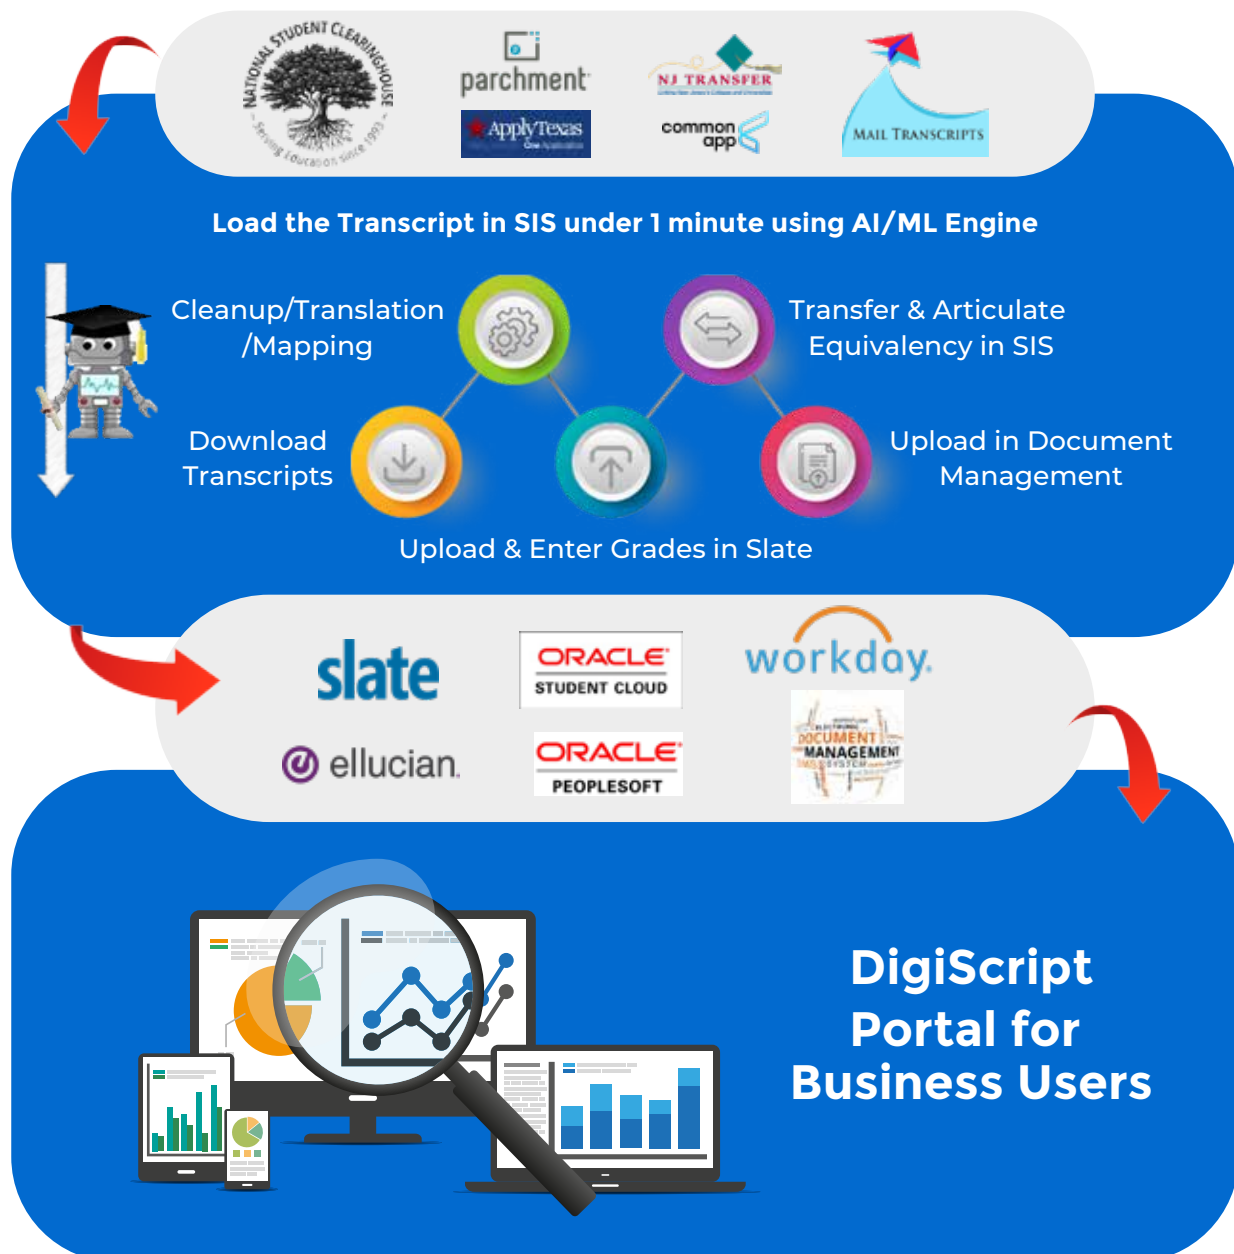

TRANSCRIPT OCR TO SIS AUTOMATION

POWERED BY – AI/ML Engine, iRPA and Smart OCR Bots

About the Solution:

Consists of highly intelligent RPA & smart OCR Bots trained using AI/ML algorithms, and sample transcript data and transcript types

Core Strengths of the Solution:

- ⌚ Error handling during transcript data transformation and mapping
 - School name, student name, course name, transcript date not found
 - Grade could not be translated
 - Transcript-Image could not be converted into text
 - Individual grade totals do not match cumulative grade
- ⌚ Data mapping based on business rules specific to the higher education institutions
- ⌚ Plug n Play Core Connectors for Enterprise applications such as: PeopleSoft, Workday, Oracle Cloud, SAP, Banner, SLATE, SharePoint, Electronic Document Management, etc.
- ⌚ Provides reporting capabilities to monitor document processing time, staff allocation, outstanding evaluations etc.

Transcript to SIS Automation solution is offered with our rapid deployment and managed support services.
